

Hybrid Tomato Tough Boy

DESCRIPTION:	An indeterminate pink tomato that is extra-early maturing with a deep oblate shape and green shoulder. Plants have medium sized leaves and medium-short internodes. Tough Boy features excellent flavor with a high sugar content and is best suited for fresh market. It has tough skin resistant to cracking and has 6 to 7 fruits per cluster.
MATURITY:	Extra early
VARIETY CHARACTERISTICS:	High resistant to Fusarium race 1, Verticillium, Nematode and Stemphylium
MARKETS:	Suitable for fresh markets.

Descriptions, illustrations, photos and disease resistance, etc. are based upon the results obtained under favorable conditions and certain races of pathogens/diseases. Identical results are not guaranteed nor implied for all growing conditions. Information is based on average data compiled. Physical characteristics, adaptability and disease tolerance may vary under different conditions. Rev B
