

Northeastern US/Southeastern Canada

Long-day Onions

Variety	Days to Maturity	Size Class	Diameter (inches)	Storage Duration	Market Use	Planting Method	Comments
Yellow							
Ascent (T-801)	80	Med - Prepack	2.00 - 3.00	Short	Fresh Market	Transplant	Holds shape well, even in high density plantings. Good skin and uniform globe shape. Not well adapted to hot, dry conditions on muck soils.
Alpine	80	Medium	2.75 - 3.25	Short	Fresh Market	Transplant	Primarily used as an early transplant variety in QC, and NY. Nice skin, good shape and size.
Highlander	85	Medium - Jumbo	2.75 - 3.50	Short	Fresh Market	Transplant	Main transplant variety following Alpine. Light skin sets nicely with proper curing. Very good size and yields.
Norstar	90	Medium - Jumbo	2.75 - 3.50	Short	Fresh Market	Transplant	Good early transplant. Performs well in sandy and muck soils.
Wolf	90	Medium - Jumbo	2.75 - 3.25	Medium	Fresh Market	Direct Seed, Transplant	Better at higher altitudes. Strong resistance to Basal Plate Fusarium.
Frontier	95	Medium - Jumbo	2.75 - 3.25	Med - Long	Fresh Market	Direct Seed, Transplant	Good variety from transplant or direct seed. Strong resistance to Basal Plate Fusarium and Pink Root.
Mountaineer	100	Jumbo	2.75 - 3.50	Med - Long	Fresh Market	Direct Seed	Uniform production under wet or dry conditions. Prefers the cooler weather of the maritimes. Strong resistance to Basal Plate Fusarium and Pink Root.
Traiblazer	100	Medium - Jumbo	2.75 - 3.50	Long	Fresh Market	Direct Seed, Transplant	Works very well as a transplant or from direct seed. Strong skin and excellent storage. Strong resistance to Basal Plate Fusarium.
Trekker	105	Medium - Jumbo	2.75 - 3.50	Long	Fresh Market	Direct seed, Transplant	Fine quality with excellent storage and skin that holds up well. Daylight sensitive, performs best below 45th parallel. Strong resistance to Basal Plate Fusarium.
Milestone	107	Medium - Jumbo	2.75 - 3.50	Medium	Fresh Market	Direct Seed	Nice size and shape, medium storage under ideal conditions. Strong resistance to Basal Plate Fusarium.
Centerstone	110	Medium - Jumbo	2.75 - 3.75	Medium	Fresh Market, Process	Direct Seed	Excellent size and shape, single centers, good yields. Medium storage, stores longer than Milestone. Strong resistance to Basal Plate Fusarium.
Grand Perfection (TTA-747)	120	Jumbo - Colossal	3.00 - 4.00	Medium	Process	Transplant	Best from transplant with excellent size and yields. Direct seed where the growing season is longer.
Red							
Ruby Ring	108	Medium	2.75 - 3.25	Med - Long	Fresh Market	Direct Seed, Transplant	Nice skin and internal color, good storage. Primarily from transplants. Strong resistance to Basal Plate Fusarium.
