-----------------------	---

**NOTES:**

- Need to keep salt levels low so leach intermittently
- Cut with 8-10 buds open
- Store upright in water (with preservative) as horizontal stems turn upwards

Descriptions, illustrations, photos and disease resistance, etc. are based upon the results obtained under favorable conditions and certain races of pathogens/diseases. Identical results are not guaranteed nor implied for all growing conditions. Information is based on average data compiled. Physical characteristics, adaptability and disease tolerance may vary under different conditions. Rev B
